## A WONDERFUL DISCOVERY.

This is the age of research and experiment, when all nature, so to speak, is ransacked by the scientific for the comfort and happiness of man. Science has indeed made giant strides during the past century, and among these by no means least important discoveries in medicine comes that of

## THERAPION.

This preparation is a practically perfect remedy, most genuine and reliable Patent Medicines ever introduced, and has, we understand, been used in the Continental Hospitals by St. Louis, Boston, Johns, Valparaiso, Melbourne, and the well-known Chassagnon, and indeed by all who are regarded as authorities in such matters, including the celebrated Lallemand, and Roux, by whom it was some time since uniformly adopted, and it is the removal of those who require such a remedy we think there is no doubt. From the time of Aristotle downwards, a potent agent in the removal of three diseases has (like the famed philosopher's stone) been the object of search of some hopeful, generalised, and for beyond the mere power of such could ever have been discovered—of transmuting the base metal into gold is surely the discovery of a remedy so potent as to store up the failing energies of the confirmed man in the case, and in the other so effectively, speedily and safely to expel from the system without the aid, or even the knowledge, of a second party, the poisons of acquired or inherited disease, all the poisons forms as to leave no stain or trace behind. Such is THE NEW FRENCH REMEDY

## THERAPION

which may certainly rank with it; if not take precedence, of many of the discoveries of our day. About which no little ostentation and noise have been made, and the extensive and ever-increasing demand that has been created for this medicine, which ever introduced appears to prove that it is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men. Therapy may be obtained of the principal chemists and druggists throughout the world—Diamond Fields Street, Singapore.

THIS "MACAU" INSURANCE  
CASE.In continuation of the reasons for his judg-  
ment on the O Yan Tsal v. the Fook On In-  
surance Company—part of the text of which  
appeared in last evening's issue—the Chief  
Justice said—Taking the case one step further, if a vessel  
has, as the *Macau* had, cost its owner a con-  
siderable sum for repairs of all sorts; if a vessel  
which he bought as a very old one has cost far  
more even than he anticipated, far more than  
its market value as a repaired ship, far more  
than any such ship ought to have cost him,  
why should he not insure her for the full  
amount which she has actually cost him? I  
know of no principle of law which prevents  
him. The law only steps in and says: "make  
it a matter of agreement with the insurance  
company then you can recover." And it is in  
order to prevent all sorts of questions, such as  
those I have indicated, being raised after the  
loss has actually occurred, that the "value po-  
licy" has been introduced into practice; and the  
law in dealing with them treats such policies  
by the light of the law applicable to similar  
contracts. If the assured has valued his ship  
at so much, and the insurers have accepted the  
valuation, there is an end of the matter save in  
the case of fraud, or perhaps such over-valua-  
tion as might be held to be evidence of fraud.But the question of fraud does not arise in this  
case. I have no doubt that O Yik Tong, having  
purchased such large sums on his vessel, did  
intend to insure her for as much as possible  
on the basis of that amount; the only ques-  
tion therefore is, did the insurance Co. accept  
his valuation? The answer turns on the  
meaning of the words, "estimated value,"  
which were inserted in the policy; and as  
I have stated in my preliminary judg-  
ment, the solution of this ambiguous phrase  
must be either, that the company accepted  
the estimate given by the plaintiff; or that  
they treated it merely as a basis for future  
negotiations as to what the actual value was,  
in the event of her being lost. They adopt  
the two meanings; indeed the only two mean-  
ings, which can be given to the words "esti-  
mated value."I have come to the conclusion that the com-  
pany accepted the estimate of value given by  
the plaintiff as the basis on which they entered  
into the contract of insurance. The reasons  
which induced me to come to this conclusion  
are the following:—The proposal was before the company  
for about a month before it was actually  
effected: the original estimate of value  
being "90 odd" thousand dollars, which  
differs so inappreciably from the "95,000"  
afterward adopted, as to be immaterial. The  
original offer of the company was to insure up  
to \$30,000, which was afterwards raised to  
\$40,000, showing clearly that the company  
must have devoted some consideration to the  
actual value of the vessel. Captain Douglas  
had a retainer from the company to report on  
proposals for insurance; he did in fact report  
on the *Macau* in respect of her capacity to  
carry cargo on the voyage to Amoy. The com-  
pany, therefore, had it in their power to verify  
the plaintiff's estimate of value at any moment.  
They did not do so. The figure \$9,000  
was in fact adopted as the basis of the  
contract, the company insisting on the con-  
dition that the plaintiff should himself in-  
sure for the balance \$5,000. The company  
did not, as they might, as experienced insurers,  
have done, put in words the effect that they  
did not accept the plaintiff's estimate of value,  
which would have put the onus on the  
plaintiff in the event of loss of proving the  
actual insurance value of the ship reducing it  
to an open policy. And if, after these con-  
siderations had been duly weighed, I had any  
doubt left as to what the intention of the com-  
pany really was, they vanish when I come to  
Ng San Kau's statement: "I understood it to  
be that we should take 40% of this of \$95,000,"  
as he immediately changed it to "of the value  
of the ship." I regret that I cannot believe this  
introduction into his thoughts at that time of a  
matter which it is clear he had never thought  
of, and which was obviously the result of con-  
ference with his legal advisers.I am therefore of opinion that by signing the  
policy the company agreed to accept the  
estimate of value given by the plaintiff, which  
had requested him to give, and which they in-  
serted in the policy.With regard to the condition that the plain-  
tiff himself should insure for \$5,000, I am of  
opinion that he has fulfilled it; for on the finding  
that the value of \$95,000 was taken as the basis  
of the insurance, the balance \$5,000 was not  
insured in any other company, and therefore  
the plaintiff was in fact his own insurer to this  
amount: this was the amount which, from his  
own point of view and accepted by the com-  
pany, he himself had at risk.Judgment must therefore be for the plaintiff  
with costs.

## THE GOLFING BIBLIOPHILE.

It is my boast that books and things concerning  
The lore of golf, I purchase for my wealth:  
That I assimilate each scrap of learning:  
On matters that appeal.Unto a Royal and Ancient bibliophile.  
Commencing with that sure and solid basis—  
The "Book of Rules" (which set before my face  
The game in all its fascinating phases.  
And taught me to replace  
The verdant and I scattered into space.I next procured the books of Braid and Vardon—  
Volumes that smote me with a zealous sting,  
Inciting me to practise in the garden  
That simple-looking thing  
Which people designate the perfect swing.Since then I have pursued such dissertations  
As "Caddies' Traits" or "Worms upon the  
Green";  
And similar profound expiation  
Mostly contained between  
The covers of each prattling magazine.I, too, have studied each promiscuous photo-  
Of Barry's swing and Rhona at the tee;  
The works of Taylor I possess in toto,  
And as for Beldam, ha!  
Takes not a snapshot that I do not see.Yet—with such sound instruction, such elating  
Prattle and dogma of the putt or drive,  
With all those cunning hints, those palpitating  
Pages of precept—I've  
Stuck all the while at minus twenty-five.

HONGKONG, WEDNESDAY, MARCH 6, 1907.

## THE CHINA MERCHANTS' COMPANY.

The China Merchants' Steam Navigation Company has long held a prominent position in the shipping world of China, and may fittingly be described as the Cunard Line of China. Hitherto, the Company, although owned and controlled by Chinese shareholders in the North and South, in the Straits, and, in fact, wherever Chinese subjects have settled, has not been registered as a limited liability company, for the very good reason that until the formation of the Nanyang Kiang Shaungpu, or Ministry of Agriculture, Works and Commerce, there existed no registration laws in China. Since the formation of the Ministry of Commerce, however, and the enactment of laws affecting the registration of companies, it has become practicable for corporations to be registered on lines very similar to those obtaining with us. As we recorded in a special telegram from Shanghai last week, a meeting of the shareholders in the China Merchants' Steam Navigation Company was held with the object of electing special representatives of the company for the purpose of registering it as a commercial concern in the Ministry of Agriculture, Works and Commerce. According to our information, the promoters of that meeting had the object of registering the company in view some three months ago, and they proceeded with great diligence to secure their end, and at the same time to conform to the articles of association, by obtaining the required majority to elect a board consisting of the following gentlemen: H.E. Shen Kung-pao, Taotai Shih Tun-ho, Taotai Chou Chin-chien, Chairman of the Chinese Chamber of Commerce and Director of the Chinese Telegraph Company; Taotai Wong See-chan, Director of the Imperial Bank of China, and Taotai Yu Ya-ching, Comptroller of the Netherlands Bank. Strictly speaking, while this board is not constituted entirely of the official element, the character of its constitution did not entirely commend itself to those Cantonese shareholders who were present at the meeting, but as they were in the minority the voice of the majority prevailed. It was stated that those present represented some 25,000 shares, or over half

the share capital of the concern, and the nominations submitted were adopted. This procedure, not meeting with the concurrence of the Cantonese shareholders in the North, they promptly telegraphed to their compatriots in Hongkong and Canton, with the object of obtaining the support of the latter in a joint protest against the board elected by the Shanghai shareholders. In response to that appeal, a meeting of shareholders was held in Hongkong on Monday, H.E. Cheong Pat-ze, who presided, being supported by H.E. Wu Ting-fang. The result of that meeting has already been published. Three resolutions were passed. The first was to the effect that local shareholders were entirely in favour of the proposal that the concern should be registered as a limited liability company. The local shareholders, however, declared their objection to the constitution of the board elected in Shanghai, holding, as one of those present put it, that the Northern shareholders were going behind the backs of the shareholders abroad. Cantonese members expressed the belief that the registration of the company could be quite as effectively secured through the instrumentality of the present board of directors and officers of the company, contending that the latter were "a more representative body, since they comprised both the official element as well as members of the mercantile community; and, consequently, were more intimately concerned with the interests and requirements of the company. They further contended that the articles of association empowered the present officials to effect the registration, and no necessity existed for the appointment of a specially constituted and entirely independent body, such as that proposed. Dissatisfaction was also expressed with the shortness of notice that had been given shareholders abroad regarding the intention of the Shanghai shareholders to effect so important a change in the constitution of the company. We are quite in sympathy with the views expressed by the Cantonese shareholders, particularly with regard to the last point. If the matter were left entirely in the hands of officials—although we do not in any way impeach the character of those nominated in Shanghai—there could be no certainty that the tendency might not be gradually to subvert the mercantile interests of the concern to the interests of the official section which would be to the detriment of those most vitally concerned in the future of the company. While this point was not raised at the meeting on Monday the inference is obvious from the protest of the Cantonese in Shanghai and Hongkong against the nominations adopted in the North. In China the same practice should obtain in matters affecting trade and commerce as in England, and official interference is entirely to be deprecated as being inimical to the best interests of those whose money is invested in the concern and who are most affected by the prosperity of the corporation. The result of the vigorous action adopted by the Cantonese section of the shareholders in the company will be awaited with the utmost interest.

MESSRS. Wheelock & Co., freight brokers, of Shanghai, are glad to be able to record a decided change for the better in Coast freights; this is owing partly to the resumption of business after the holidays, partly to the near opening of the Northern ports and partly to the reduction in the numbers of "outsiders" plying on the coast, so many of the Norwegian boats having been obliged to retire homewards during the last year so that now there are only about a third of the number remaining that were out here twelve months ago.

AN exemplary fine was that imposed upon Chung Woon, a night-soil coolie, of No. 6 Upper Kutter Street, when he was placed before Mr. F. A. Hazeland at the Magistracy this morning, charged with dumping night-soil on the hill-side at the back of No. 37 Mountain View, Peak. Chung was apparently too tired to carry the refuse to the legitimate dumping-place, so, believing himself unobserved he tipped over his buckets, and was making off when a *likong* stepped up, and took care of him. The charge was proved, and the man was fined 12s, with the alternative of six weeks' hard labour, and severely cautioned.

ACTING Governor Chang of Kwangsi has strictly enforced the new opium regulations in his province. Besides the issuance of proclamations ordering the closure of all opium dens in the provincial capital on last Chinese New Year's eve, he has privately despatched a number of his confidential attaches to find out whether those regulations have been observed by the subordinate officials under his jurisdiction. If there is any official who observes the regulations in public, but violates them in private, these emissaries are in report him to His Excellency at once for impeachment. It is stated that on account of this, expectant officials and other subordinates in Kwangsi are trembling with apprehension lest they may lose their posts and ranks.

THE Japan Steamship Company, the formation of which has been a rather difficult matter, has now a brighter prospect as a result of a promise of the Government's protection and the assistance of Baron Shibusawa. The prospectus has been issued, inviting subscriptions for shares. According to the prospectus, the steamers to be purchased by the new combine are about 120, with an aggregate tonnage of over 250,000. The head office of the company will be established at Tokyo, with branches at Osaka, Yokohama, Kobe, Moji, Otaru and other places. The capital of the company is fixed at ¥30,000,000 in 500,000 shares of ¥50 each. (This number 500,000 is undertaken by the promoters, and 60,000 only are placed on the market. Foreigners are not allowed to hold any share in the company, as it is to receive a subsidy from the Government. The subscription list closes on the 3rd of next month. We learn that the market for the shares is very favourable, already 23,000,000 being applied for again 160,000 is needed.—*Japan Chronicle*.

The Resolution being passed by the required majority it will be submitted for confirmation as a special resolution to a second extraordinary meeting which will be subsequently convened.

## ALLEGED KIDNAPPING.

"WHY REMAIN IN HONGKONG?"

In Mr. F. A. Hazeland's court, this morning, Chief Detective Inspector Hanson charged Lai Kam, a boarding house runner, of No. 211, Des Voeux Road Central, and Chan Leung, a coolie, residing in a matshed at Quarry Bay, with attempting to kidnap a youth, a sixteen years of age, on the 4th inst. Although no evidence has been taken as yet, the particulars of the case, as given us, read as follows:—Tsung Kwai, the youth, works with the second defendant in a matshed at North Point. He has no guardian in Hongkong, his widowed mother, whom, it is stated, he supports, residing in the interior. Of late, we are told, the coolie has been speaking to the boy of "foreign lands and the fortunes that could be made there in a short while." The boy, however, refused at first to listen to any tall yarns, but he was coaxed on Monday last. "Come on now," the coolie is reported as saying, "Let us leave this country and go elsewhere where we can make more money. Why remain in Hongkong?" The boy thought of his mother, he thought of the large sums of money he would be able to send her when he reached "the land of gold fields," and finally decided to cross the ocean. On Monday night they decided to shift. The lad was taken to the boarding-house runner's house where he was kept until yesterday, when he was put on board a river steamer, which touched at Macao first before making any attempt to reach the "land of gold fields." While the lad and his two advisers were comfortably installed on board the host a detective happened along and thinking everything "wasn't all right" with the party of three over there, called the boy aside and questioned him. After a few minutes' conversation the detective decided to take the trio to the Central Station. Here the boy told the whole story and his alleged kidnappers were held for trial. The case was brought up formally this morning and adjourned.

## CHINAMAN'S FATAL FALL.

DROPS FROM A WALL—DIES FROM SHOCK.

On Tuesday of last week an aged coolie, about fifty-nine years old, was removed to the Government Civil Hospital suffering from injuries which he received in a fall. He died yesterday from shock. The coolie had been through many hardships during the past month or so owing to ill health and his failure to secure employment. On Tuesday, 26th ultimo, he went to visit some workmen who were employed on a building in course of construction in Caine Road, hoping to get a job. He found them working on the top of a retaining wall and went up to speak to them. While standing on the wall, speaking to the men, the old man overbalanced and fell to the street, a matter of about thirty feet. The accident was reported to Inspector Ritchie, at the Central Police Station, and he despatched a sergeant with an ambulance to remove the coolie to hospital. All the coolie sustained in the fall was a compound fracture of one leg. He was operated on in the hospital, but he never recovered, his death following some days later, due it is said from shock.

## KULANGSU (AMOY) MUNICIPAL COUNCIL.

## BIRDS UP A FEATHER.

"TWO AND A CONSTANT TO BE" HARD LUCK.

Waldemar Poolman, an unemployed compositor, and William Lillian, an unemployed seaman, were charged before Mr. F. A. Hazeland, to-day, at the Police Court, with being drunk and incapable in Queen's Road Central, last evening. Both men pleaded guilty to the charge. They had taken a bit too much to drink they said, and had sought comfort in a gutter, from where they were rescued by two hard-hearted policemen.

Poonien, it was alleged, some weeks ago, imagined he was a detective sent down by the Shanghai Municipal Council "on special duty." No one knew what that "special duty" was until late one evening he manoeuvred into a district police station and gave away the secret. Signalling the Inspector to be silent, he crept up to the desk, and whispered: "A startling crime has been committed in this district and I am here to solve the mystery. It's murder, mind you, he was reported as saying, 'and I'm going to write a book about it.' The Inspector's reply was: 'All that we know is that Poonien cleared out in a hurry, promising to turn up again. He did not, however, and the next time the Inspector saw him was in the Police Court this morning.'

Lillian lately had been thinking of joining the local police force, it was said. Yesterday he came to the conclusion that he would 'make a try,' and let down and wrote an application to the Chief of Police. He promptly got 'light' on the strength of it, and the letter was found in his pocket when he was charged last night. His Worship fined each defendant \$5, or one week in gaol. They spent the entire morning hunting for the money to pay their fines. Whether they ultimately secured it is not known.

## CANTON DAY BY DAY.

CANTON RIVER BRIDGE.

[From Our Own Correspondent.]

Canton, 5th March.  
The other day H.E. Wu Ting-fang together with Mr. Wm. Danby, engineer for the iron bridge work, had an interview with H.E. Viceroy Chow. H.E. found the plan did not quite answer his requirements and desired that it be slightly altered accordingly. Two stations are proposed to be built at both termini of the bridge, one at Canton side and the other at Honam. On the Canton side there is ample space on the new bund for the purpose, but at Honam five buildings on the frontage have to be removed for the proposed station.

## OPIUM SMOKING.

The Tatar Generals have jointly issued a proclamation ordering all the opium divans in the quarters of the Bannermen inside the City, some twenty in number, to be closed within a period of three days and to prohibit all Bannermen from smoking opium. Offenders will be dealt with severely. The Tatar Generals are apparently showing an energetic effort in the prohibition of opium smoking. In the last half year over one hundred opium divans at Fashan have been closed.

## CANTON-KOWLOON RAILWAY.

The Viceroy has instructed the officials of the Bureau of Agriculture, Industry and Commerce to communicate with the Canton Chamber of Commerce and the different charitable institutions and to issue a proclamation for the purpose of soliciting subscriptions to shares of the Canton-Kowloon Railway.

## VICEROY SHUM.

An Imperial Decree was issued on the 3rd inst. appointing H.E. Shum Chun Hsun to the position of Viceroy of Szechuen province and H.E. Jik Liang, present Viceroy of Szechuen, to be Viceroy of Yun Kwei provinces. H.E. Shum was quite unwilling to take up the appointment as Viceroy in Yun Kwei province and tried for some time past to have his position changed and has now gained his point. The decree orders them both to proceed at once to take up their respective positions.

## AN INDISPENSABLE OFFICIAL.

H.E. Viceroy Chow memorialized the throne asking the Government to send H.E. Tang Shao-yi to Canton for the purpose of settling the railway affairs, but the request was refused on the intervention of Prince Ching on the ground that the coming negotiations between Russia and China require Tang's services in Peking.

## INSPECTING PROVINCIAL MINTS.

Yesterday a telegram was received at the Viceroy's yamen stating that H.E. Chun Bik King, Inspector of Imperial Mints, will leave Shanghai for Canton on that day, so his arrival is expected in Canton in a few days. H.E. Chun has been ordered by the Tsuchihai to proceed through the Empire on a tour of inspection of the different mints of the various provinces.

## CHINESE IN MANILA.

DIFFICULTY OF TAKING CENSUS.

Some difficulty is being experienced by the Bureau of Health in securing a correct census of the Chinese population in this city, says the *Manila Times*.

As a rule the Chinese believe there is some ulterior motive for locating them and securing their name and residence, most of them believing the census to be an additional effort on the part of the authorities to impose further taxes.

A second canvass of the Chinese districts is being made, as the first canvass fell surprisingly short of the official census of 1903, and it was thought possible that many had been overlooked.

That the Chinese colony in Manila is decreasing there can be no doubt. There are but few Chinese births registered in Manila, while a large number are continually returning to their native birth. In addition a number have been deported, while a large percentage die, especially during the rage of epidemic diseases. With the drain by death and removal with no new arrivals and but few births the Chinese colony in this city is destined to decrease, but the decrease in the census was so large as to create doubt in the minds of the officials as to its correctness.

Another noticeable decrease in the Chinese colony can be attributed to the fact that many Chinese who were here in 1903 have moved into the provinces since that time, where they have engaged in business.

The Democrats in the Senate have decided to talk up the Subsidy Bill.

## Fogs in the Channel.

A remarkable series of fog accidents have occurred in the Straits of Dover.

## A COAL SLIP.

AND THE RESULT.

Huagham Bay was the scene of a *franco* yesterday, which might have, but fortunately did not result fatally, the cause of all the trouble being a very ordinary occurrence on a coal ship when discharging cargo of that nature. In this case a number of coal-coolies were engaged on board a vessel, whose name did not transpire, in Huagham Bay, discharging coal into lighters for the Green Island Cement Co. Some of the coolies were below shovelling up the coal from the deck, while others were above, digging down towards the deck. Suddenly, one of the men below, looking up and seeing one of the coolies of the upper gang looking down to see the result of the coal-slip, two of those below thought he had deliberately thrown the coal down on them, and started up to "get even," before the top man could get away. One of the two then seized and held him by the queue, while the other, despite the victim's protestations and attempted explanations, proceeded to batter the man over the face with his coal-shovel. When they were through with him he was a sorry sight, for his eyes, nose and cheeks were badly cut and bleeding. A report was at once made to No. 2 Police Station of the occurrence, and Inspector Gourlay had the two assailants arrested, sending the unfortunate battered man to hospital, where his wounds were dressed. His morning Inspector Gourlay placed the culprits before Mr. C. A. H. Melbourne, at the Magistracy, who, on the charge of assault and battery, being proved, fined the shovel-manipulator \$5, and the queue-holder \$3, while he at the same time ordered each of them to pay \$1 compensation to the complainant.

## HONGKONG HOTEL MANAGEMENT

## OFFER TO LEASE HOTEL REFUSED.

## LIVELY PROCEEDINGS.

The half-yearly meeting of the shareholders of the Hongkong Hotel Company, Ltd., was held in the Hotel this afternoon. Mr. J. W. Noble, chairman of directors, presided, and there were present Hon. Mr. E. Osborne and Mr. W. Hutton Potts, directors; Messrs. V. A. Cluick-shank, E. J. Chapman, Ahmet Rumjahn, H. Fook, Lo Cheung Shie, E. S. Kadoorie, E. E. Haskell, G. C. C. Master and C. Mooney, secretary.

The Secretary read the notice calling the meeting.

The Chairman said:—Gentlemen—We will, with your permission, follow the custom usual in Hongkong and consider the report and accounts as having been read.

We regret not being able to lay before you an account showing a much larger net profit than the one under consideration. There is no disguising the fact that our business is not in as flourishing a condition as it was several years ago. Our income has been gradually but steadily decreasing month by month in several of our profitable departments, and those interested naturally seek for the cause of the existing conditions as well as the remedy therefor. We consider the falling off in the receipts to be largely, if not wholly, due to the general hard times now ruling, and of which all seem to complain so bitterly; those on a sterling basis feel the pinch severely, and find their monthly stipends materially reduced so that exchange is so high. One hears on all sides of expenses being cut down and of economies which must of necessity be practised to make ends meet, which alone is sufficient to account for the serious falling off in private dinner parties, wines and liquors consumed, extra meals, &c. Some, a considerable number, in fact, attribute this falling off entirely to the closing of the main corridor. Be that as it may, the closing was a measure made necessary by the use to which it was put by many who had no interest or connection with the hotel. It had become nothing more or less than a public thoroughfare, and the toilet rooms situated therein were made use of as public property. The passage was made offensive by men in various stages of intoxication, so that it was high time some means should be adopted to break up these objectionable practices and abuses, when the Government ordered that the corridor be closed. The result has been satisfactory and pleasing.

With your directors it is a constant study how retrenchments may be effected without, of course, sacrificing efficiency or interfering with the comfort of the guests of the hotel. We cannot increase the prices for board and lodging paid by our regular monthly residents even though we know these prices to be less, in many instances, than those charged by private hotels and boarding houses in the Colony. We are pleased to have them with us though they are not a source of much, if any, profit.

We are always glad to welcome any hints or suggestions shareholders may feel disposed to make with reference to improvements or policy in the management of the hotel, but like most shareholders you do not take enough interest in your property or its management to even attend these meetings, unless the dividend is a bad one, then you roll up in numbers to fight for more! I will mention just here that some of our shareholders have recently made a suggestion as to how your dividends might be increased and your business greatly improved. Mr. Rumjahn has come forward with an offer to lease your hotel for a period of ten years on certain terms and conditions. He has not, however, been able to convince us that his offer is good enough for us to recommend it to you for acceptance. We have given it the careful consideration an offer of this character demands; we have gone into figures very carefully and exhaustively, and although Mr. Rumjahn assures us he is confident that under his management the property would improve greatly and the hotel become more popular and be more thoroughly appreciated by the public generally than it is at present, and at the same time enable us to pay larger dividends, as well as leave a large margin of profit for himself, a study of our figures for the past five years has led us to conclude that it would be unwise to accept this offer. Trade is greatly depressed and times are hard, it is true, but it is also true, nevertheless, that the dividend we are to-day asking you to sanction is at the rate of 20% per annum—just bear that in mind. We hope and trust times will not always be bad, and with the return of general prosperity our turnover will be larger and our profits once more return to their old level. Some of your directors have served you long and faithfully, coming to your assistance at a time when your company was on the very verge of bankruptcy, and the stock selling as low as \$3. per share. They have by devotion to your interests rescued your property, shown you some very handsome balance sheets, added to your assets large and valuable buildings, made many improvements and earned for the hotel a good will which in itself is a valuable asset. Gentlemen, be careful how you make radical changes; business moves in cycles; the hotel business is no exception. Your board is not of the usual type meeting weekly or monthly for half an hour or so. All our members are in reality managing directors, meeting daily for the transaction of business and weekly have long sittings, of never less than two and a half hours' duration, whilst once each week all the buildings are thoroughly inspected by one of the board, in company with the manager and his assistants—this is a long and tiresome amusement for a Saturday afternoon. The board generally sits in the hotel so as to be able to judge of the quality of the food, the style and manner of serving, conduct of the dining room and to test the merits of the numerous servants. A different set or "gang," serves the directors' table each week that their efficiency may be gauged. We would be glad to accept

any offer, and many others if the hotel could only be run without so much personal supervision and with constant and persistent detail, the extent of which none of you can be fully cognizant. Having been a member of the board but a few months, I can speak with perfect freedom, and I make no reference to myself when I say your board has been, and is a very hard-working, painstaking, conscientious body, deserving of your greatest praise for what it has done for your company. When I joined the board a few months ago I was amazed to find such a perfect system of accounts relating to all departments, such a mass of details and the thorough grasp of the situation by the board. I am telling you of these things because no one else can, and you ought to know them. Our fees appear in the accounts, that our title is not charged for is true, it being one of the duties of the members of the board to eat it whether they relish it or not. Now, then, if it is your desire to enter into new arrangements as to future management, either to lease the hotel or to elect a new board, of your choice, we are ready to resign our positions, individually or collectively, here and now, so don't allow your bashfulness to deter you, as you have but to express your wishes for us to act.

Since the above was written a letter has been received from Mr. Rumjahn withdrawing permanently his offer to lease the hotel. Some days ago he wrote us reducing the offer which he now withdraws with these words: "In consequence of the great length of time your company is taking to consider my proposal, and since the accounts for the second half of last year's working have been published, I beg with much regret to withdraw my offer for the lease of the Hongkong Hotel buildings, etc., for the present." The first letter was received on January 9th, 1907. We concluded, however, not to alter what had already been written, that you might have some knowledge of what had transpired.

Before proposing the adoption of the report and accounts I will be pleased to answer any questions you would like to ask.

I would also like to say that the typhoon of September last damaged our property to the extent of about \$6,000.

Mr. Rumjahn: I think it is but right to ask you to read the other portion of my letter of withdrawal. You have only read a portion of it. I think it would be beneficial and to the interests of the company, and in justification to myself, that you should do so.

The Chairman: I only read that portion of your letter, because it was the only part that had a bearing on the subject we were discussing. If you wish me to read the other part of your letter I have no objection. I will read the entire correspondence if you like.

Mr. Rumjahn: I leave it entirely in your hands.

Mr. Hutton Potts—I would read the whole of the correspondence.

Mr. Osborne—Certainly.

The Chairman then read the following letter:—

The Secretary, Hongkong Hotel Co., Ltd.

Sir,—In consequence of the great length of time your company is taking to consider my proposal, and since the accounts for the second half of last year's working have been published, I beg with regret to withdraw my offer for the lease of the Hongkong Hotel buildings, etc., for the present.

It is the chance for my renewing the offer is rather remote at the present moment, and as I am holding a few hundred shares, although a small quantity having only been registered in my name, I shall be very pleased for the interests of the company generally, and the public in particular, to give my views to and to discuss them privately with your directors as to some important improvements which seem to me essential for the welfare of the company. It must be understood, however, that the motive which has prompted me to make the proposal for a lease, or my request for a private discussion for improvements does not reflect the least upon the management of the company; on the contrary, it must be admitted that the board of directors, under the circumstances, have been very untiring in their efforts to promote the interests of the company.

Amongst a few other improvements appearing to me greatly beneficial to the Company is a change in the present system of running the bar, which are not yet even provided with well-known brands of wines to be obtained locally. The policy carried on by your company to push on the company's own particular brands such as "Hongkong Hotel's Special" and "Special" or "Wines specially bottled for the Hongkong Hotel" is a good one in the absence of keen competition; but when it is remembered that rival establishments are stocking wines that commend themselves to the palate of a cosmopolitan community it is but natural that the members of the community give a preference to a place where drinks accustomed to their palate are obtainable. It is hard to reconcile the fact that your bars are not even provided with the most well known and the only genuine Italian Vermouth (Martini and Rossi).

By introducing well-known brands of wines not only the company would profit handsomely, for at least double the cost would be realized, but that adequate requirement for the public demand could then be said to be provided for, without which competition even if established immediately next door to your company's buildings would be justified.—Yours, etc., AHMET RUMJAHN.

Hongkong, 4th March, 1907.

Mr. Rumjahn: I have one or two questions to ask before you adopt the report. Are the Hotel Mansions leased out for a number of years, and for how much and for how long?

The Chairman: If you had given us notice of these questions we would have had the figures ready for you.

Mr. Rumjahn: In the report it is given as \$2,000 for the six months. That gives you \$3,500 a month.

The Chairman: That is correct.

Mr. Rumjahn: Are you aware that the lessee is making between \$1,000 and \$1,500 a month on the lease?

The Chairman: Well? Mr. Rumjahn: Are your directors aware of that?

The Chairman: They are.

Mr. Rumjahn: Were the shareholders consulted when the premises were leased? Was the proposal ever submitted to the shareholders?

The Chairman: Is it customary to submit offers to lease to shareholders before going into the business?

Mr. Rumjahn: I think it is a big undertaking.

The Chairman: You must remember these buildings were leased before they were built.

Mr. Rumjahn: Before they were built?

The Chairman: While they were building. They were leased before the building was started, otherwise the building would not have been built. So that it was a speculation on the part of the man who leased them—a speculation that the directors or the shareholders, so far as I can learn, were not willing to undertake. Now that the speculation has proved successful, I think we can congratulate ourselves rather than otherwise. We don't want to see the man lose money.

Mr. Rumjahn: What has been in my mind is this; that the company has three directors drawing \$3,000 a year who agree to lease out a building to a private individual who makes money out of it, when they ought to have seen that the money was made by the company itself.

The Chairman: What is the point you wish to make?

Mr. Rumjahn: If it has been leased.

The Chairman: What is the point you wish to make?

Mr. Rumjahn: (continuing his sentence)—The additional receipts amounting to \$20,000, the company would have been that to the good.

The Chairman: How so?

Mr. Rumjahn: Because the difference between what the company is getting from the lessee in rental and the rental received by the lessee makes it about \$20,000 a year.

The Chairman: \$12,000. So I hear outside, just as you do. I have no authority to say so. I have already told you if he had not leased it at that figure the building would never have been built. In addition to that, the rental is on the sliding scale, so that in a few years we shall receive a great deal more than we do now. I think you pointed that out in one of your letters, so you must have been fully cognizant of it.

Mr. Rumjahn: I don't think so.

Mr. Master: I think those new buildings give a fair return on the whole, at the rent we get from the lessee.

The Chairman: They do.

Mr. Rumjahn: It only covers the interest on the debentures and the actual cost of the reclamation which costs about six per cent, on the outlay. If the reclamation had been sold, as I understand there was an offer of \$20 a foot, you couldn't have done better.

The Chairman: You say in your letter of the 9th of January: "The company will then receive from the Hotel Mansions \$18,000 per annum." But what is your point?

Mr. Rumjahn: How long is the lease to the present lessee?

The Chairman: Ten years. With reference to Mr. Rumjahn's letter I just read, the wines sold are the same as those supplied in our best and palmiest days. I may say that all liquors asked for are supplied even although they don't appear on the wine card. Whenever there is a demand for a particular wine we at once supply it. Even if one man comes in once in six months and asks for a certain thing, we don't hesitate to supply him.

Mr. Rumjahn: Since a doubt has been created—

The Chairman: We will buy your wines or any others.

Mr. Rumjahn: But if you don't stock leading wines and your customers come in and don't see them on the wine list they don't.

The Chairman: We don't have such modest customers.

Mr. Master: Mr. Rumjahn wants his own liquors to be bought by the Hotel.

Mr. Rumjahn: The company is, I understand, pushing its own particular brands.

The Chairman: That is Mr. Rumjahn's policy as well. Are there any other questions? No other questions being asked.

The Chairman said: I propose that the report and accounts be adopted.

Mr. Cluickshank: I beg to second the motion.

As on a previous occasion I had the pleasure of seconding the motion, I take advantage of this occasion to express, on behalf of the other shareholders, our gratitude to the directors for their assiduous labours and for the conscientious way they have attended to their duties during the past year. With regard to Mr. Rumjahn's remarks as to the wine list, I am not a drinking man, but I have heard no complaints outside, no reference as to the quality of the liquor supplied by the Hongkong Hotel, or any advantage to be gained by substituting by others those at present provided. And I have much pleasure in seconding the motion (applause).

The Chairman: We certainly would not substitute one liquor for another, but we might add another or more so that everybody might be pleased to get all the drinks they want.

The motion was carried unanimously.

Mr. Ho Fook proposed the re-election of Dr. Noble as a director of the company.

Mr. Master seconded, and the motion was carried.

Mr. Haskell moved the re-appointment of Messrs. H. U. Jeffries and A. R. Lowe, C.A., as auditors.

Mr. Chapman seconded, and the motion was carried.

The Chairman: That is all the business, gentlemen. Thank you very much for your attendance. If there is anything we can do to improve the condition of the hotel, be sure we shall do it, and any suggestions any one is pleased to make, by Mr. Rumjahn or others, we will be very pleased to hear them and thank you.

Mr. Master: Speaking for myself, I have the greatest confidence in the directors. I feel

they take a great deal of trouble—more than they are expected to—in coming here and going round the hotel. I have always been satisfied with the Hongkong Hotel, and know that the directors have given much of their time and attention to its working. Mr. Osborne has been constantly in attendance.

The Chairman: He certainly has. And he has been very ably assisted by Mr. Farfit.

Mr. Master: I think it is a very great mistake to blame the directors because there has been a slight depression, and we only ask them to go on as they have been doing.

The Chairman: Thanks, Mr. Master, for your remarks; and also Mr. Cluickshank.

Mr. Rumjahn: I think there is a misunderstanding regarding my attitude towards the directors. I think from my letters it will be clearly seen that I said the directors have been very untiring in their efforts to do everything in their power for the benefit of the company. I have taken a great deal of trouble to find out the working of this company for some time past, and I must say the directors have been very assiduous and painstaking in safeguarding the interests of the company. But I must say there is room for improvement. There is no system which is perfect in every way. We are moving on with the times, and I think that with some improvements in the management of this company it could be gradually improved for the benefit of the company generally.

The Chairman: Thank you. Dividend warrants are ready.

Mr. Master: Ask Mr. Rumjahn if he ever kept a hotel.

Mr. Rumjahn: I am keeping a private one.

Mr. Cluickshank: Do you think you have had such special experience that you could run this gigantic concern better than it has been done?

Mr. Rumjahn: That is my opinion.

The Chairman: Dividend warrants can be obtained by applying at the secretary's office. The meeting then ended.

## "A CHINESE HONEYMOON"

## FURTHER DEVELOPMENT OF THE RECENT MARRIAGE SWINDLE.

The barber referred to in yesterday's edition of this paper, as having played a leading part in the recent extraordinary marriage swindle on the Pootung side of the River, has been arrested by the native police in a Pootung village, in company with the mother of the man who figured in the fraud as the bride, and who is now speeding a nightmare of a honeymoon in a cage, in which he is being exposed, by order of the native authorities, at each of the Shanghai City gates.

The bold barber strenuously denies that he has had anything to do with the fraud and seeks to lay all the blame and responsibility on the "mother-in-law," who, he says, was the prime mover in the scheme. This statement, however, is not borne out by the evidence of the four go-betweens who positively asseverate that they were employed by the barber to negotiate the marriage, and received their commission of \$4 each from him.

The Magistrate, being in somewhat of a quandary as to what was best to be done, took a sip of tea and ordered the runners to lay 400 blows on the back of the barber, and 200 on each of the four accomplices and the "mother-in-law," which was done, though without changing the aspect of the case in any appreciable manner. The prisoners were then removed to the cells in the Magistrate's yard, where they still remain. The unhappy bride will be taken out of her cage to-day and committed to the same place, where she will be held in custody pending the receipt of specific instructions in the case, for which the Magistrate has written to the Governor of Soochow—Shanghai Times.

## THERAPION MARK.

This successful and highly popular remedy, used in the Continental Hospitals by Rivieri, Rostan, Jobert, Velpeau and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other tried remedies have been powerless.

## EMIGRATION TO THE UNITED STATES.

TOKYO OPINION OF THE NEW BILL.

CONFLICTING AMERICAN REPORTS.

A Tokyo dispatch to the Asahi states that the Japanese Government appears to regard the passage through the U.S. Congress of the Immigration Act Amendment Bill with favour. The dispatch credits the Minister for Foreign Affairs with a statement to the effect that the action of Japanese emigrants to Hawaii immigrating to the United States is unlawful, and strictly speaking may be described as deliberate fraud. It was considered on the part of the U.S. authorities to allow three labourers from Hawaii to land on their shores. From January to November last year, over 10,000 Japanese labourers proceeded to Hawaii of which number over 11,000 seem to have again immigrated to the American continent. In view of this fact, the course taken by the United States to suppress the ingress of the Japanese labourers through that channel is only proper, and from the American point of view, inevitable.

The new legislation having been adopted simultaneously with the settlement of the San Francisco schools question, it is alleged in some quarters that the Japanese Government has agreed to the legislation in exchange for the settlement of the schools question. The adoption of the new measure is a matter quite distinct from the prior question. In the negotiations on the school dispute the Japanese demand has been entirely acceded to, but the Japanese Government has never agreed to the prohibition of the transmigration of the Japanese emigrants from Hawaii. Moreover, the Government reserves the right to offer protest against the measure at any time, providing due reasons are forthcoming to justify such action.

As has been mentioned above, the U.S. authorities from their good will towards Japan have connived at the transmigration of Japanese labourers from Hawaii, and the new legislation is nothing more than the expressed wish of the American people being put into law. The Japanese Government fails to find any reason for offering a protest against the measure. The effect of the new legislation upon Japanese labour in Hawaii will render the prospects of emigrants to the islands more promising than before, and the Government naturally does not find any disadvantage in this fact.

A San Francisco message states that it has been agreed that Japanese children under 16 years of age should be admitted into San Francisco public schools on condition that the Japanese and American Governments would mutually agree to exclude both skilled and unskilled labourers from their respective territories. The same message gives the substance of a report on the proceedings leading up to the settlement of the question, which it said to have been approved both by the President and the Secretary of State. The Federal Government and Congress, says the report, have now conceded to the demand of the Californians, and the Federal Government has used its influence to procure the amendment of the Immigration Act. If the ingress of Japanese labourers into the United States cannot be checked by the new legislation, the Federal Government binds itself to initiate the enactment of a Japanese Exclusion Act. The Federal Government does not interfere with the prerogative of the State of California, but has instituted legal proceedings to test the position of the Japanese in California from the standpoint of the Treaty. This course has been taken as a diplomatic courtesy.

The report is reticent on the question as to whether the Federal Government has or has not consented to the withdrawal of the lawsuit against the exclusion from the public schools of Japanese children. But as a proof of the San Francisco authorities having made no concession in the question, the report adds that they are resolved to insist on the invalidity of the America-Japan Treaty in that connection, as the establishment of separate schools for the Japanese children is antagonistic to the said Treaty.

The order issued for the segregation of Japanese children has been amended, continues the report, and is now to the effect that no alien children over 16 years of age shall be admitted into the public schools. By the term "alien children" is really meant Japanese children, but this phrase is employed to avoid a protest on the part of the Japanese Government for discrimination against the children of Japanese. American children are allowed to attend grammar schools up to the age of 21, so that the Japanese children cannot be said to be treated on an equality with American children.

The message adds that the Mayor of San Francisco has received numerous telegrams congratulating him on his success. The Mayor was to leave Washington on the night the message was despatched for San Francisco. It is stated the U.S. Secretary of State is pushing forward the negotiations with the Japanese Government concerning the Treaty for the mutual exclusion of labourers referred to above.—Japan Chronicle.
